

Why sign up to a Green Lease?

Grosvenor's green leases make it simple and cost-effective for you to switch to green energy and refuse collection. By working together to make these changes, we can look to reduce our carbon emissions and waste to landfill together. Here is how your business can benefit from making the switch.

1. Get certified green energy at competitive prices

- Our renewable electricity is UK REGO certified and 6% cheaper than comparable green providers¹
- Benefit from all cost savings in full as we don't charge any mark-up or commission
- Reduce your admin with a dedicated account manager

2. Recycle more with one of London's greenest waste collection services

- Zero waste to landfill
- Market-leading recycling rates
- Your account manager sets you up with the service you want

3. Get support and connect with others to make your business greener

- Meet and learn from businesses like yours at our sustainability forum
- Hear from leading sustainability experts on how to optimise your business for sustainability
- Receive guidance and insights to help reduce your carbon footprint and save money through going green

¹ Based on average comparative energy provision across the 12 months in 2020. We cannot guarantee future pricing performance.
